

## Best Minecraft Shaders For Low-end PC Configuration

Hello and welcome to another Minecraft video! Today I will show you the best low end shaders for ... for ... for any type of maps. First of all I want to offer you a cool map from DarthVader! This person (and also my good friend) made it under the nickname Vader. He managed to make a map that looks great, even without any mods, but as you know, without mods the map will look terrible, and it can not help even the top shader. So ... in order to make this map, you'll need some mods as well as... some shaders.
