Jul 19, 2020 ' Cannot predict the crash.'. my iPhone clone xs max not connecting any more. iphone clone xs max missing bar on IOS. What is the meaning of "...no picture on iphone.Q: How to get a list of all folders and files in a folder using F# How do I get a list of all the folders and their contents from a specific folder? Something like: L.foldl (fun f acc l -> if String.IsNullOrEmpty(f) then l :: acc else acc) acc l where L is a folder. A: The DirectoryInfo type has a GetDirectories method that returns an IEnumerable. In particular, it allows you to

find all sub-folders of a given directory, so you could use it to find your top-level folders and then recurse into them (recursively collecting the files they contain). To do this in F#, you can build a recursive function that returns a list of directories (as defined in the Microsoft documentation):

```
let rec build_directory_list f l = match l with | [] -> [] | f::l' -> f :: (build_directory_list f l')
```

You can then use this like so:

```
let filesInFolder l = let dirs = build_directory_list DirectoryInfo.GetDirectories @"C:" let rec go l = match l with | [] -> [] | f::l' -> (f :> DirectoryInfo.GetFiles() |> List.filter (String.IsNullOrEmpty) |> List.concat (go l) go l) go dirs
```
