### What's New In?

SnapShot Studio is an integrated package, which contains: · SnapShot Studio software, which enables you to capture images from cameras connected to your computer and to print photos on your printer; · picture themes; · picture themes and backgrounds for Windows XP; · picture themes and backgrounds for Windows Vista; · picture themes and backgrounds for Windows 7. Introduction: The SnapShot Studio Professional Edition software is intended for use only with a compatible SnapShot Studio Development Kit (“SDK”). The SDK is a set of necessary files and application programming interfaces (APIs) that enables software developers to integrate the SnapShot Studio engine and tools into their software applications. Please visit our website, to locate the latest SDK, and to download and install it on your computer. If you are using the SnapShot Studio Professional Edition software with an SDK that is not the latest version, your application will be unable to display features of the software or to use the SDK. There is no charge for the SDK and it is provided by AOMsoft. However, for information and service, you may choose to subscribe to the SnapShot StudioPro software and to the SDK for a monthly fee of US \$79.95. If you do not want to use the SDK, you do not need to pay any additional fees to use the software. If you do not wish to subscribe to the SnapShot StudioPro software, you may purchase the SDK for US \$259.95 (the price includes registration, password, and upgrades). What's new in version 1.6.1: · Minor bug fixes. Installation and requirements: The SnapShot Studio Pro edition software is pre-installed with the SDK and the needed drivers on the AOMsoft website. The SDK must be installed on the computer on which you will use SnapShot Studio Pro edition software. The AOMsoft website hosts the SDK and links to it from our product's website. In addition to being able to download the SDK, the SnapShot Studio Pro edition software offers you the ability to create a free account. There is no charge for this account, and we offer free, unlimited access to all the SDK features. · SnapShot Studio Pro software is included with the SDK. · The SnapShot Studio Pro software is used to capture images from compatible cameras. · The SnapShot Studio Pro software is used to print photos and make slideshows from photos. · The SnapShot Studio Pro software is used to print photos. · The SnapShot Studio Pro software is used to print photos on the printer attached to your computer. · The SnapShot Studio Pro software is used to print photos on a printer that is connected to your computer. · The SnapShot Studio Pro software is used to make slide shows from photos, create
