www.dummies.com/how-to/how-to-edit-images-with-photoshop/ However, Photoshop is more than just a great image editor. It can also be used as a design tool for web, print, and multimedia designers. As illustrated in this book, Photoshop enables you to create design concepts, create and use templates, and even combine a wide variety of design tools. This chapter introduces you to the principles of designing for the web with the tips and tricks for using Photoshop for web design and multimedia projects. ## Creating Web Images with Photoshop The first step of creating a new web graphic involves creating a layered Photoshop file. When you're creating a web graphic, you work with layers, which can be manipulated for the purpose of creating a web design. A `Layer` is essentially a mask to which you assign a color, pattern, or gradient. Photoshop allows you to create several layers to simulate, for example, an image of a person's head being layered onto a background and then used as the basis for a web graphic. All of these layers can be manipulated to some degree. Here's the plan of attack: First, you create a layered Photoshop file with the basic design elements for the image. You also create a background layer, draw, create a pattern, apply a gradient, and add any necessary text and effects. ## Creating Layers in Photoshop If you've ever worked with a raster-image editing program such as Illustrator, you'll find that Photoshop is similar, but with a few differences. To create a new layer for a raster image, you must use the Layer and Layer > New Layer dialog box to create a new layer. You create a layer using the following steps: 1. \*\*Select Layer=>New Layer from the Layers palette.\*\* A New Layer dialog box appears, as shown in Figure 4-1, at the top left of your Photoshop window. 2. \*\*Click OK.\*\* You've added a new layer of type to your file. Photoshop doesn't display the individual layers; however, you can tell that they're there because they're listed in the Layers palette. If you drag a selection tool over an image in a Photoshop document, a selection window appears, and the layers are visible. Figure 4-1: The New Layer dialog box enables you to create a new layer. Danmark – Katastrofe forud for højsæsonen Danmarks befolkning vokser så store, at den største kommunikationsafdeling på statens kontor til at være enkelt flydende. En af det danske stats- og regeringsbyer er atter på vej mod en eksplosion i antallet af borgere. Det er den hårde, men fortsat udtalte, konflikt mellem Danmark og dets borgere, som det kan være, som deres afdeling på Reglerings-og Underretningsservice (RUS) i Ministeriet for Sociale Anliggender er tæt på at udvikle, skriver Jyllands-Posten. Siden første udgang af oktober har Danmarks befolkning vokset med 750 personer, mens befolkningen i 2016 faldt med 100.000 personer. Den række af danskere, som allerede har meldt sig som flygninge, som er blevet flyttet til udlandet eller som har et tidsbegrænset forløb, eksploderer. Næste stigning vil ifølge RUS koste 2.000 flere flygninge et halvt år, påminde minister Isabella Guldager (S) om i en tale i Folketinget. En af regeringsbyens store kommunikationsafdeling, det som kommunikationsministeren i sin tid valgte at udstede en Pengepostlicensen tilbage i 2015, har tilsammen 700 medarbejdere og over 3,5 millioner borgere på vagtplanen. I vinter ville hun have 10.000, men den store udvikling har betydet, at omkring 600 er på vagtplan i øjeblikket og yder et erhvervs- og udlendingekontor, som i dag beskrives som en
